

Maximize savings and value captured with automated recommendations

Gain more savings with one-click actions based on **AI-powered Insights** you can trust.

High-value opportunities at your fingertips

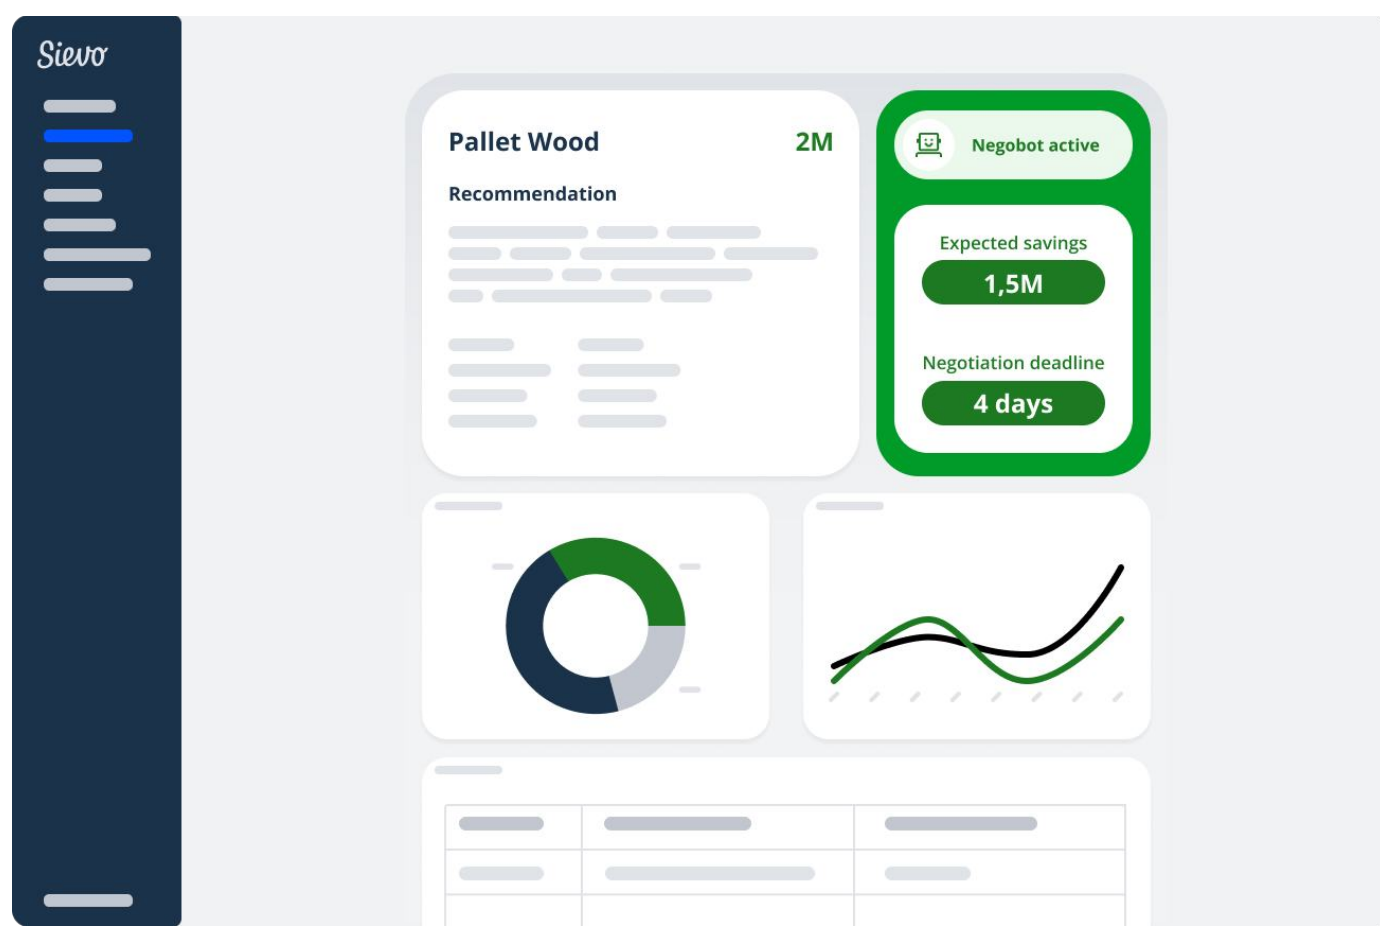

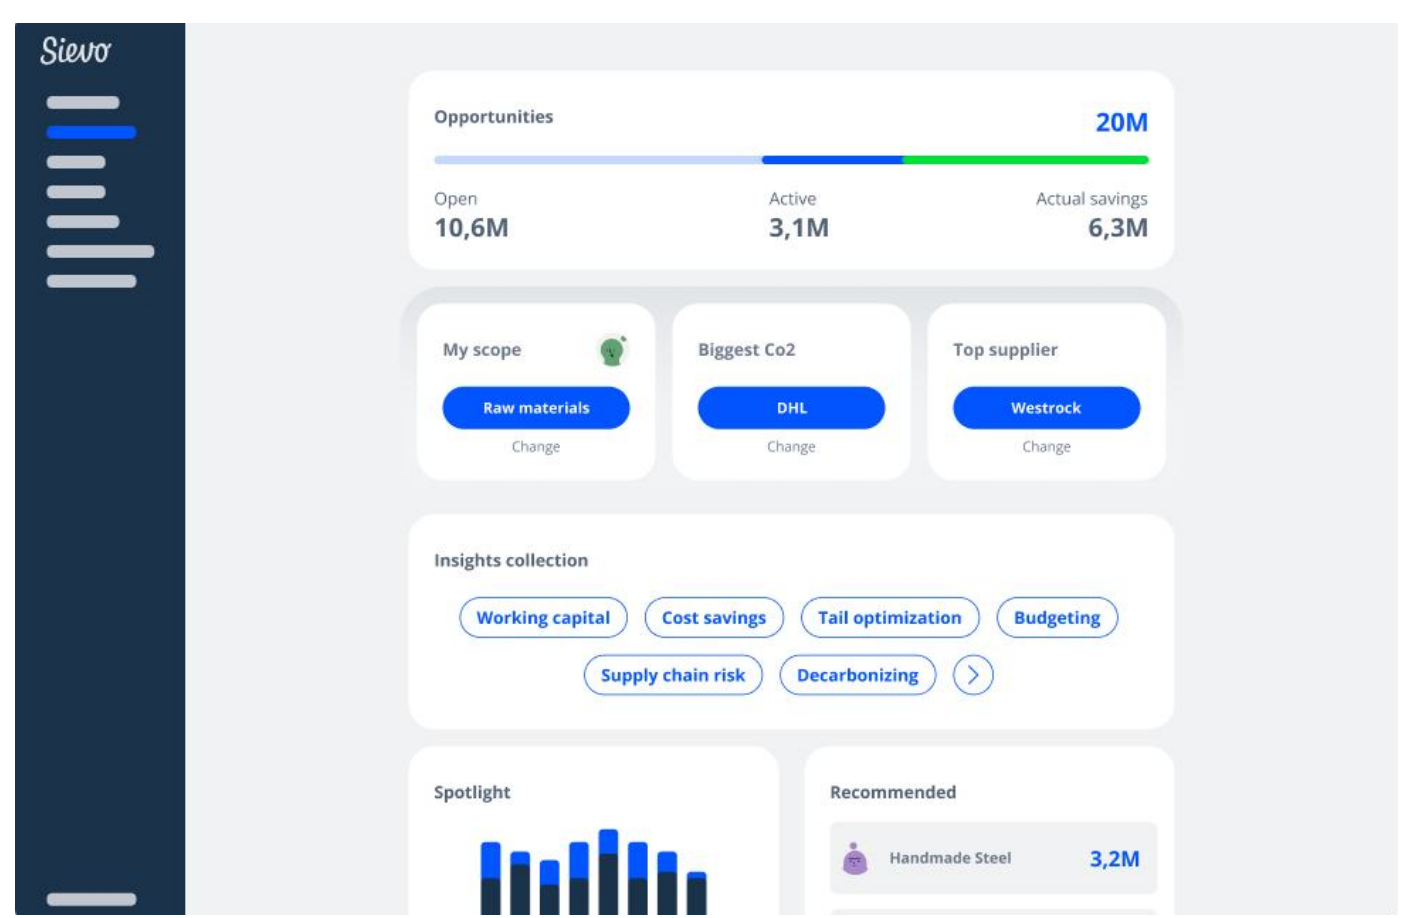

In today's rapidly evolving business environment, traditional dashboard-focused solutions often fall short. Sievo's AI-Powered Insights boosts procurement efficiency, allowing you to confidently translate data into immediate actions. Sievo guarantees the industry's highest classification accuracy, regardless of your current data quality. We empower companies to leverage their procurement data, accelerate decision-making and drive prompt actions at scale, spanning from strategic suppliers to tail spend.

Automate tedious analytics work and shift focus on strategic initiatives

Expand your savings scope, extending from high-value opportunities to previously unexplored avenues like tail spend, saving time previously consumed by manual analysis.

Closing the data-to-value gap

Accelerate the procurement decision-making with AI-Powered Insights. Provide your procurement team with accurate and **easy-to-understand opportunities** sourced from your internal, external and Sievo curated data covering your entire supply chain. **Optimize tail spend** and **enhance supplier relations**, enable **better negotiation outcomes** and **improved category strategies**. Track ROI effectively, ensuring progress from opportunity exploration to tangible value creation.

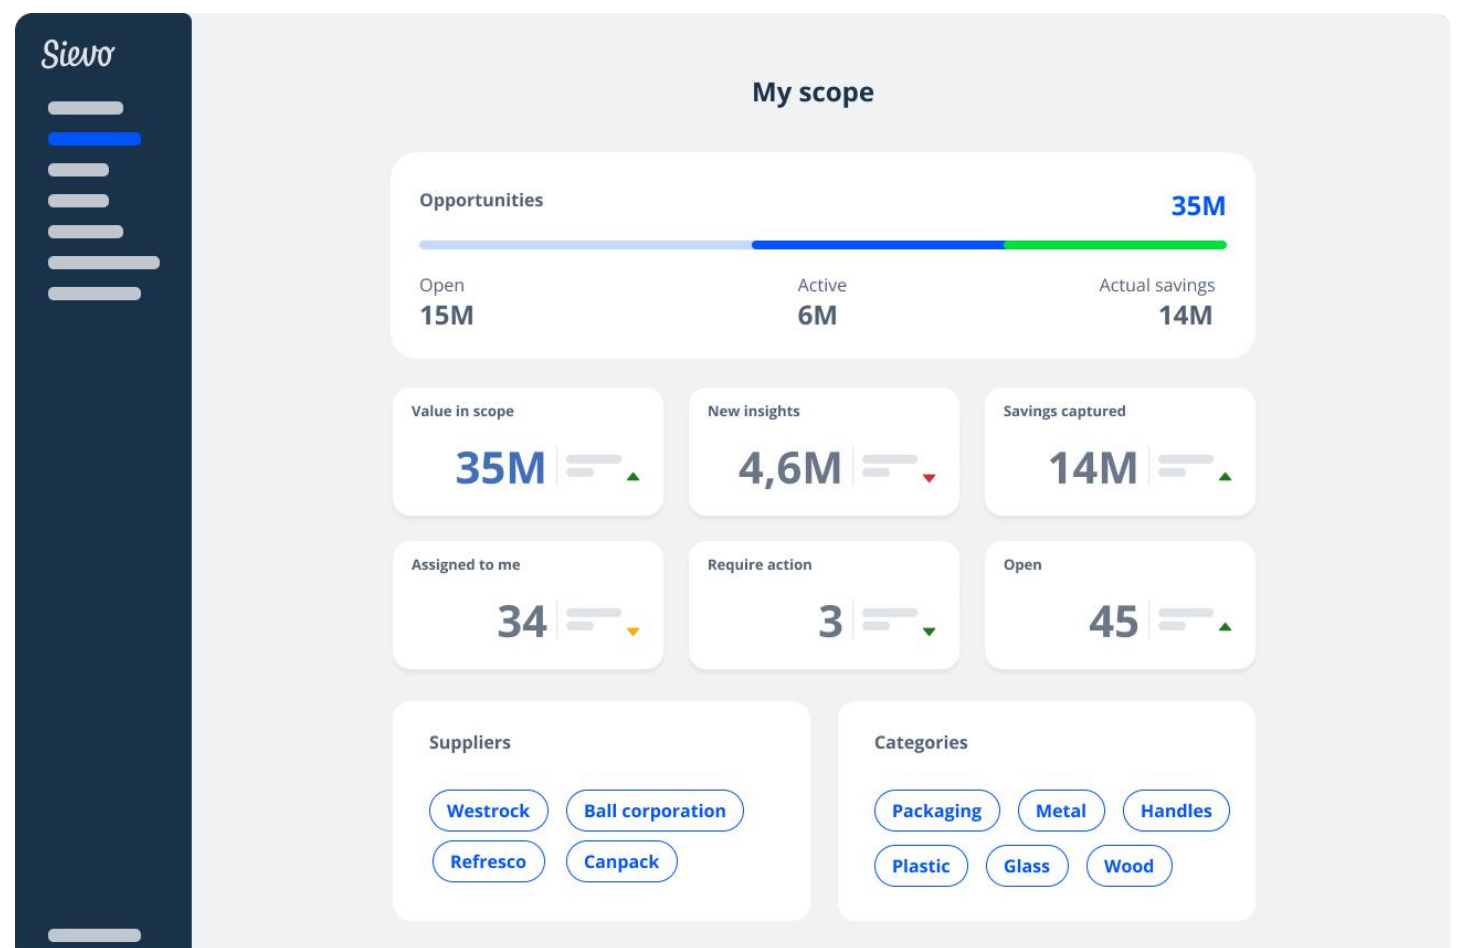

Unprecedented value capture

Experience unmatched efficiency with **reliable opportunities** delivered to you round-the-clock and paired with one-click decisions. Trigger actions like emailing suppliers, assigning tasks, and negotiations directly from each Sievo AI-Powered Insight. Gain a comprehensive view of all your Sievo data with organized Insight groups, **empowering data-driven decisions** and **reducing lead times**. Foster **collaboration** and **transparency** within your teams leveraging variety of data for improved decision-making.

Personalized insights for every user

Combat dashboard fatigue with Sievo's intuitive AI-Powered Insights. Each user is shown a customized view of supply chain opportunities relevant to them. Cut through noise with **tailored user' experiences**, assure **user adoption** and stay informed with personalized notifications for timely action on the most recent and most relevant opportunities.

“ We love how easy it is to personalize. With the discard functionality, we quickly sharpen our focus on the most relevant insights.

Associate Director, Procurement Analytics & Planning at a Multinational Pharmaceutical Company

“ The new Insights by Sievo will raise the interest among the less analytics-savvy users, helping them find opportunities that they otherwise might miss navigating through the dashboards.
